Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

Applicant's amendment, filed 23 April 2007, has been reviewed and considered. Claims 12 and 14 have been amended and claims 8, 10, 13, 15, 16 and 18-20 have been canceled. Therefore, claims 12 and 14 are currently pending. In view of applicant's amendment, the prior art rejections raised in the second Office Action are withdrawn. However, an updated search and further review of the prior art of record has prompted the presentation of the following rejections. This Office Action is considered a non-final rejection.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 12 and 14 are rejected under 35 U.S.C. 102(e) as being anticipated by BUCKLEY (U.S. Publication 2003/0208988).

BUCKLEY discloses a process comprising usage of two sheet-like mounting means (142, 152) with repositionable adhesive (148) applied to one side of the

mounting means (Paragraphs 0033 and 0034) (Fig. 2). BUCKLEY discloses mounting a fabric panel or other sheet-like material (106, 108) to each of the mounting means and then permanently mating the two mounted fabric or sheet-like materials together (Fig. 2). The two mounting assemblies are mated together (i.e. registered, secured) by the rollers (136, 138, 158, 160, 164, 170, 182, 184) of the system. BUCKLEY discloses simultaneously employing a tool (168, 166, 172, 176, 174, 186) for cutting perforations of controlled depth into the mounting means or for scoring the mounting means wherein the tool is physically integrated with the means of mating the fabric or sheet-like materials (Fig. 2).

Conclusion

The prior art made of record, as cited on attached PTO-892, and not relied upon is considered pertinent to applicant's disclosure.
